Investigators are myself & 2 Professors from the US and Russia(2) 57 GHA Project – Submitted to the Swedish Global Challenge Foundation in Oct 2017(3) Working on a Questionnaire (containing questions on doping) with a Russian Working Team

Objectives: Sport Sociology has been a part of the curriculum for decades in western part of the globe. We have started now. My PhD is concentrated around this very aspect, i.e. how to study the mindset of Indian Populace at large so that Sports can become an inseparable part of the journey of our society. I have designs to induct a small module of Sports Sociology in Sociology. I also intend to associate Sports Sociological Studies with Gender, Social Development, and other related disciplines. The 43<sup>rd</sup> AISC Lucknow was my 12<sup>th</sup> AISC in continuation, which shows my commitment towards ISS. After establishing Sports Sociology within the ISS, I, if elected as a MC Member of our LEARNED body, will ensure that more from the rural/suburban centres be a part of the ISS, to strengthen our Regional Associations & enhance the number of Institutional Affiliations.
