Studies in Indian Sociology

Seven Volume Set

Edited by **Jacob John Kattakayam**, *Indian Sociological Society, New Delhi*

Studies in Indian Sociology, is an invaluable collection of scholarly works.

The seven volumes in this series bring together the perspectives and research of some of the best-known academics and practitioners from the discipline of Sociology. The first six volumes in the series are a collection of theme-based articles that have been published in the ISS's biannual journal *Sociological Bulletin*. The seventh volume, *Indian Sociology over the Years*, is a collection of select ISS presidential addresses, edited by Jacob John Kattakayam. The fact that some of the articles that will appear in this series are several decades old and hence have fallen out of our immediate reach increases their value immeasurably. The publication of this series is also an attempt to commemorate the contributions and contributors of ISS to both the discipline of Sociology and society.
